REESE WITHERSPOON

Born in New Orleans and raised in Nashville, Tennessee, Reese Witherspoon began her acting career as a teenager with the movie One in Louisiana in 1991. After a leading role alongside Mark Wahlberg in the thriller Obsession fatal in 1996.

Reese Witherspoon actively participates in organizations defending the rights of children and women. She has long supported Save the Children, an organization that provides education, health care and emergency aid to children around the world.

Moreover, on the occasion of international women's rights day on Thursday March 8th, Reese Witherspoon gave an inspiring speech at the UN headquarters in new York.

That day she took the microphone for a feminist speech where she returned to the Time's Up movement created by Hollywood women following the Weinstein scandal. What's more, she embodied bravery and determination

She also says that at the age of 16, she was sexually assaulted and that she should not talk about it otherwise she would lose her job

She is greatly admired because despite the discrimination she received in her childhood, she did not let go and continued her career as an actress. And now she is not afraid of revealing everything about her past and all the discriminations she may have suffered from.

In my opinion she is a symbol of freedom for women's equality.
